- + Customized Mobile App
- + APIs for Third Party Integration and lot more...

INTEGRATED ECLAIMS MODULE THAT HELP YOU MANAGE INSURANCE APPROVALS EASILY

Pharmacyplus is integrated with eRx and eClaim as per the DHA's & HAAD's eClaim Management System. Pharmacyplus helps its users by facilitating eClaim Submission, Re-submission and Remittance Management with reconciliation seamlessly from a single dashboard. This is a completely software based and paperless system which helps to generate the right Details for submitting eClaims through DHA and HAAD portals in Dubai, Abu Dhabi and entire UAE. Pharmacyplus enables its users to get updated Drug list, Observation details, Denial Details and ePrescription automatically.

Pharmacyplus helps its users to generate submission files with internal validation rules based on the documentations provided by DHA and HAAD. This helps providers to submit the right files and prevent unnecessary rejections
